DEPARTMENT	Technical Services	SALARY	ACCORDING TO THE "CONVENIO COLECTIVO DE HOSTELERÍA DE LAS PALMAS"
START DATE		CONTRACT TYPE	
REPORTS	Technical Services	CONTACT	careers@clublasanta.com

Description

At Club La Santa, we believe that spaces are also part of the experience.

That is why we are looking to incorporate an organised, proactive person with aesthetic sensitivity, who wants to actively participate in the renovation and improvement projects of our hotel spaces.

If you enjoy combining purchasing, design, decoration and materials coordination; if you have good judgement when selecting functional and attractive finishes; and you are motivated by seeing how an idea becomes a real space, you will find here a dynamic, creative environment with constantly evolving projects.

More than simply filling a vacancy, we are looking for someone with initiative, a practical mindset and a desire to grow within an international project where detail and quality make the difference.

What you will experience as part of Club La Santa

- Flexibility in salary payment: you can choose between 14 payments + holiday bonus or a prorated 12-month salary, so your pay adapts to you.
- Meals at the hotel during your working day.
- Exclusive employee benefits: discounts in our sports shop, supermarket and various resort services.
- Free use of sports facilities: because here we don't just promote sport, we live it.
- International and diverse environment: you will work with people from different countries, cultures and professional backgrounds.
- Real participation in renovation and hotel improvement projects.
- Continuous training and ongoing learning alongside construction, decoration and management teams.
- Real career growth opportunities within a dynamic and multidisciplinary environment.

- Job stability and a healthy working environment: we foster a collaborative, organised and professional workplace culture.

Your role in the team

As a Project and Interior Design Technician, you will actively participate in the transformation and improvement of different resort spaces.

You will play a key role in sourcing and selecting materials, coordinating orders, quality control, and providing visual and aesthetic support in renovation and restoration projects.

Your ability to combine organisation, technical judgement and decorative sensitivity will help ensure that each space maintains the quality, functionality and style that we aim to represent as a brand.

You will work closely with site management, suppliers, interior designers and different hotel departments, participating in real projects where every detail counts.

What will you do in your day-to-day work?

- Source, compare and select materials for construction, decoration and interior design.
- Manage orders for furniture, textiles, décor, tableware and hotel equipment.
- Coordinate suppliers, manufacturers and distributors.
- Prepare mood boards and visual proposals for different resort spaces.
- Collaborate in defining atmospheres, finishes, lighting and decorative style.
- Review samples, technical sheets, quality and material performance.
- Draw and modify 2D plans.
- Create visual proposals and 3D models to support decision-making.
- Track deliveries, budgets and technical documentation.
- Identify on-site needs and help resolve issues related to materials and supplies.
- Coordinate with construction teams, decoration teams and managers from different hotel departments.

What will help you succeed and grow with us?

- Knowledge of AutoCAD for 2D technical drawing.
- Experience with SketchUp, 3ds Max or other 3D modelling and visualisation tools.
- Aesthetic sensitivity and interest in spatial design.

- Ability to create mood boards, decorative proposals and visual presentations.
- Good judgement when selecting functional, durable materials suitable for hotel use.
- Strong organisational skills to manage multiple orders, suppliers and deadlines simultaneously.
- Initiative, attention to detail and problem-solving ability.
- Ability to compare options, negotiate and find practical solutions.
- Previous experience in purchasing, decoration, interior design, renovations, fit-outs, equipment or hotel projects.
- Spanish and English level sufficient to work in an international environment.
- Ability to commute to the hotel independently.

What we are looking for

We want to incorporate someone who combines practical vision and creativity. Someone capable of understanding the real needs of a hotel project, coordinating materials and suppliers, while also contributing ideas, aesthetic judgement and the ability to visualise spaces.

We are not looking purely for an administrative profile nor purely a creative one, but for a versatile person who enjoys seeing projects evolve from the initial idea to the final result.

We especially value attitude, willingness to learn, adaptability and interest in caring about the details that make the guest experience different.

If you are interested in applying for this position, please submit a cover letter and resume detailing your relevant experience and why you are an ideal candidate for the position to careers@clublasanta.com. We look forward to hearing from you.
